Inventor's Declaration

The original signed declaration was filed in the grandparent application, No. 09/312,205. Unfortunately, Applicant is unable to locate a retained copy of the signed declaration. In lieu of a copy of the signed declaration, Applicant has submitted with this divisional application an unsigned copy of the declaration bearing an indication that it was signed, namely the mark "/s/" on the signature line. See 37 CFR 1.63(d)(1)(iv) ("A newly executed oath or declaration is not required . . . in a continuation or divisional application, provided that: . . . a copy of the executed oath or declaration filed in the prior application, showing the signature or an indication thereon that it was signed, is submitted for the continuation or divisional application.") (emphasis added).

Applicant presents the claims for examination.

Respectfully submitted,

Michaels of Oregon Co.
